

OUR OFFER

ROBUST AND ADJUSTABLE CABLE BENDER FOR POWER CABLE

Heavy-duty cable bender for power cables with a diameter of up to Ø70 mm. The adjustable shaft in length and angle provides the best conditions even in tight spaces.

- ✓ Easy to use
- ✓ Bends the cable quickly and easily to the desired radius
- ✓ Perfect for tight spaces
- ✓ Adjustable telescopic handle in height and angle
- ✓ Can be opened and placed anywhere along the cable
- ✓ Made of steel and fully corrosion-resistant
- ✓ Rubber handle provides a secure and comfortable grip

Sahlin's cable bender is a practical tool for working with power cables. With this tool, you can easily shape the cable to the desired radius, making the work smoother and more time-efficient. The cable bender is designed to work in tight spaces, making it useful in various work environments.

The telescopic handle can be adjusted between 850 mm and 1170 mm and can be set to three different angles, providing flexibility. The cable bender can be opened and placed anywhere along the cable. Made of steel and fully galvanized, making it durable and corrosion-resistant. It is also equipped with a rubber handle for a secure and comfortable grip.
