

OUR OFFER

ADJUSTABLE
JOINTERS STAND
WITH QUICK
MOUNTS

A cable jointer stand for cables up to Ø110 mm, offering stable and adjustable support. The stand lets you precisely position the cable in any direction using tension screws and clamp mounts.

- ✓ Adjustable in all directions for precise cable placement with tension screws
- ✓ Telescopic height adjustment from 520 to 850 mm for ergonomic working height
- ✓ Adjustable distance between mounting points, 1150–2050 mm, to fit different cable lengths
- ✓ Secure cable fastening with clamp mounts
- ✓ Foldable design for easy transport and compact storage

This flexibility makes the stand ideal for splicing LV, MV, and HV cables, whether you're working onsite or in a workshop.

For easy handling, the stand folds up, making it simple to transport and convenient to store when not in use. Its sturdy construction ensures excellent stability even during demanding splicing tasks, and the adjustable design provides efficient and ergonomic working conditions.
